Our lawyers have experience and expertise in the area of leasing and equipment finance, including:

- All types of lending and leasing transactions, including leveraged lease transactions relating to the financing of commercial and corporate aircraft, rolling stock, barges and cargo ships
- Various true lease, synthetic lease, and tax-free like kind exchange transaction structures
- All aspects of lease syndication, warehouse lines of credit, residual financing, and nonrecourse financing and servicing.
- Managing tax and economic benefits available to equity investors, lessors and lessees
- Experience in multinational export credit and financing transactions
- Experience with large ticket, middle market and small ticket leasing transactions and vendor programs
