Private Client Services

We appreciate the importance of listening to our clients and are dedicated to working with them to develop creative and desirable solutions for their current situation and long-term plans. Keating Muething & Klekamp participates actively in Cincinnati Academy of Collaborative Professionals which was founded in 1998. Collaborative Family Law is a dispute resolution model in which both parties in the dispute retain separate, specially-trained, experienced family lawyers who, when handling a collaborative law case, devote all of their efforts to reaching a settlement without court involvement. Our lawyers are knowledgeable and experienced in the area of family law and provide the following services:

- Resolve matrimonial disputes, including all matters related to divorce, dissolution, child custody and property division
- Represent clients in connection with prenuptial agreements
- Assist our clients in guardianship matters
- Advice and planning for distributions of retirement benefits
- Represent clients in federal and state income tax audits
