Our lawyers are skilled in the area of commercial loan documentation and regularly assist clients with the following:

- Secured and unsecured financing transactions, including senior and subordinated loans, asset-based loans, multi-bank structured and syndicated loan transactions, factoring arrangements, inventory financing, letters of credit, acquisition financing and operating lines of credit
- Documentation relating to creation and perfection of security interests in a variety of tangible and intangible collateral including all Article 9 collateral and filings, commercial aircraft and related Federal Aviation Administration filings, cargo ships, barges, yachts and related maritime filings and rolling stock and related Surface Transportation Board filings
- All aspects of repossession, marshalling, transportation and disposition of collateral through public and private sales
