Budig Enterprises, Inc.	First Financial Bank	Towne Properties
Cintas Corporation	General Cable Corp	

### **Direct excerpts from KMK Client Satisfaction Surveys (2007 and 2004).**

"Outstanding attorneys who meet deadlines, regardless of how unreasonable. I like being able to deal directly with the attorney handling a matter rather than having to go through a more senior lawyer. KMK is able to provide excellent research, both legal and public."

"KMK offers broad range of abilities and people to meet any legal need we have."

"Have worked with KMK for years. Good integrity, straight talking, smart, creative, good business people."

"KMK team is very responsive and skilled. KMK always gives you the impression that you're their only client. KMK is one of the few outside vendors that has my complete trust."

"Good resource allocation (partners where necessary, associates and staff where possible), great attention to detail, focus on client service with work and in supporting client activities (charitable efforts, outside work activities). Great group of people committed to Cincinnati."

"The services we receive from KMK are high quality and at a good price. From a value standpoint, what KMK offers exceeds what is available in the large markets such as New York and Chicago."

"Knowledgeable and responsive – shares client's sense of urgency. Broad base of expertise in different fields to draw upon. Great vision and anticipation of long-term problems that must be addressed in resolving disputes / drafting agreements."

"We have had a 40 plus year relationship with KMK, starting with John Muething. We have always had good service and have been treated with respect and care."

"I have recommended KMK for several years and have been thanked by the new clients for doing so, and I have complete confidence in the ability of the firm."

## IN OUR CLIENTS' WORDS (Continued)

---

"I have recommended KMK to no fewer than 25 other colleagues. I am very proud to be a client of KMK's. I had a 5+ year relationship with [another law firm] in the past, as well as 2-3 person firms. I've also worked with [3 other law firms] and KMK is by far the better one in the market around the Tri-state."

"Great service, great attention. Other attorneys I have worked with in the same field are not as attentive or interested. The attorneys I have worked with at KMK talk in terms of 'we' instead of 'us and you'."

"Not only do KMK attorneys solve the problem, they come up with ideas for ways to help our business."

"The group is strong and committed to reaching reasoned business solutions. KMK is often looked at as an internal partner or resource rather than a service provider."

"Counsel have always shown a deep understanding of the subject matter and considerate of my thoughts, recognizing the value of the client's input, resulting in the most efficient work product possible. The work has always been timely and well presented, and charges for the services have been reasonable and fair."
