- Attorneys on speed dial - 39 Things Keeping us up at Night

2020 Trends

2020 Trends

**69 days
until 2021!!!**

2020 Trends

- *2020 Verizon Data Breach Report, <https://enterprise.verizon.com/resources/reports/2020-data-breach-investigations-report.pdf> (2020).*
 - *45% of breaches involved hacking; 22% were errors.*
 - *70% of breaches perpetrated by external actors; 30% involved internal actors.*
 - *86% of breaches were financially motivated.*
 - *Top malware variety – password dumper (ransomware 3d).*
 - *Top malware vector – email link.*
 - *Top data variety compromised – credentials.*
 - *New regional analysis.*

2020 Trends

- *Five Cybersecurity Trends from 2020 – And What The Future Holds*, <https://www.securitymagazine.com/articles/93377-five-cybersecurity-trends-from-2020-and-what-the-future-holds> (Sept. 17, 2020).
 - Records exposed in all breaches increased by 284%.
 - Average cost of the breach for public firms was \$116 million.
 - Trends:
 - Cybercrime is paying off.
 - Cyber threat intelligence is critical.
 - Cloud makes life easier.
 - You have to be agile to survive.
 - You need people.

2020 Trends

- *Top 14 Trends in Cyber Security for 2020, <https://www.techfunnel.com/information-technology/cyber-security-trends/> (July 7, 2020)*
 - GDPR Spread around the World
 - Data Breach and Phishing
 - Cybersecurity skills gap
 - Get Out of My Cloud: Cloud Security Issues
 - Automation and Integration
 - Mobile Devices as a Major Security Risk
 - State-Backed Cyber Attacks
 - IoT Devices Bring Even More Risks
 - The role of AI and ML
 - Transport Infrastructure
 - 5G
 - Malicious Software Bypassing Sandboxes
 - Cyber Insurance

2020 Trends

- *Must Know Phishing Statistics: Updated 2020*, <https://www.tessian.com/blog/phishing-statistics-2020/> (Aug. 25, 2020).
 - 88% of organizations around the world experienced a spearphishing attempt in 2019; 86% experienced business email compromise attempts.
 - 96% of phishing attacks arrive by email.
 - Top 5 subject line for BEC attacks: Urgent, Request, Important, Payment, and Attention.
 - Top 5 Types of data compromised: (1) credentials; (2) personal data; (3) internal data; (4) medical; and (5) bank.

2020 Trends

- *Must Know Phishing Statistics: Updated 2020*, <https://www.tessian.com/blog/phishing-statistics-2020/> (Aug. 25, 2020).
 - The most impersonated brands: Apple, Netflix, Yahoo, WhatsApp, PayPal, Chase, Facebook, Microsoft, eBay, and Amazon.
 - By the end of Q2, Zoom went from out of the Top 10 to the most impersonated brand in email attacks.
 - Attacks on finance employees have increased 87% while attacks on the C-Suite have decreased 37%.

ANATOMY OF A HACK: Breaking & Entering

How many of you think your
organization is **secure**?

Threat Landscape

- Remote workers heavily targeted
 - Vulnerable home routers

As previously discussed, we're in the process of migrating our email accounts to a new domain with enhanced security features. If you're receiving this email, that means you're part of the test group. Please click the link below and confirm that you can sign in using your existing username and password. Also, please make sure your mail and folders copied over successfully. If you encounter any issues, please reply to this message. If you don't make us aware of any issues with your new account by Sunday, May 27th at 7:00 p.m some of your email or folders may be lost. Please let me know if you run into any issues.

Subject: Secure Email Migration

Everyone,

In effort to improve the security of our organization, we're going to be looking to transfer our email to a new provider and a new domain. When we're ready to start testing, you'll all receive an email from the new provider with the link to log into the new account.

Thanks for the assistance!

Objective Complete

Access Target Network

The screenshot shows a Windows desktop environment. On the left, a vertical taskbar contains various application icons. In the center, a terminal window displays a series of shell commands and their outputs, including directory listings and file operations. On the right, a web browser window is open, displaying the Sophos UserPortal login page. The page features the Sophos logo at the top left, a language dropdown menu set to 'English' at the top right, and a central login form titled 'Login to UserPortal'. The form includes fields for 'Username:' and 'Password:', a checkbox for 'Remember my login (uses cookie)', and a 'Login' button with a green arrow icon. At the bottom of the browser window, a copyright notice reads '© 2000-2018 Sophos Limited. All rights reserved.'

Coronavirus Live updates U.S. map World map FAQs How to help Flatten

Technology

Everybody seems to be using Zoom. But its security flaws could leave users at risk.

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Cybersecurity Landscape – COVID-19 and Working From Home
 - Tips to Keep your Organization Safe
 - Utilize video-conferencing privacy settings – don't get lazy
 - Change passwords and limit control/access to data
 - Deactivate unused or noncritical data
 - Make backups and store offline
 - Remind employees about their training
 - Encrypt sensitive information
 - Confirm process in place to deal with data breach
 - Install security patches on remote computers
 - Keep up on current events

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Cybersecurity Landscape – Social Media
 - Over 90% of companies use social media for advertising, communicating with customers or other business purposes
 - Social media breaches have been on the rise.
 - 22% of internet users polled said that their online accounts had been hacked at least once

Attorneys on Speed Dial – 39 things that keep us up at night

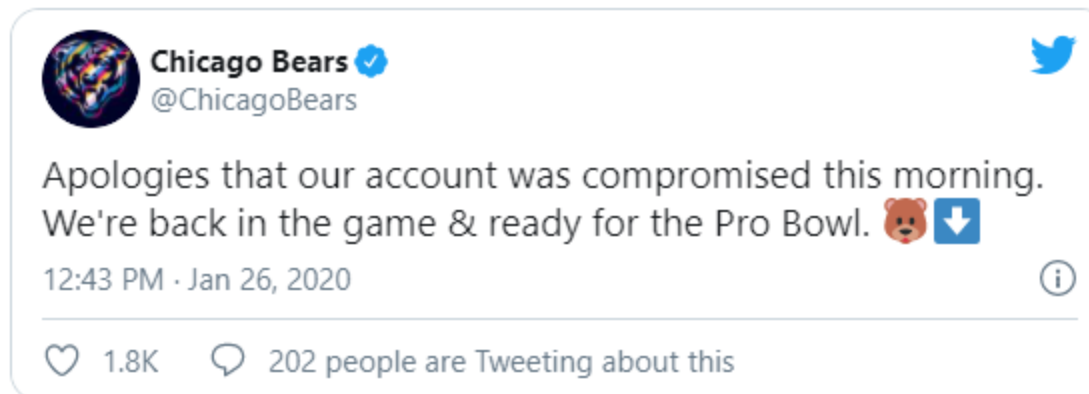

- The Changing Cybersecurity Landscape – Social Media
 - Tips to Keep your Organization Safe
 - Have a designated individual in charge of social media accounts and keep account log-in information private
 - Make sure that terminated employees no longer have access/control
 - Keep eyes on all your different accounts – make sure there are no accounts in your organization's name that could be hacked without your knowledge
 - Turn on two-factor authentication
 - Don't treat public computers like personal/work computers

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Cybersecurity Landscape – Social Media
 - If you have been hacked – Social Media
 - Make sure it was not a disgruntled employee or other internal breach
 - Update your system/delete any malware
 - Change passwords
 - Follow the site's advice on restoring account and check account settings
 - Inform your followers and customers

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Cybersecurity Landscape – Social Media

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Cybersecurity Landscape – Smart Devices
 - Smart Phones
 - Smart Refrigerators
 - Smart Cameras

Ring customers with cameras breached by hackers sue Amazon in proposed class action lawsuit

BY **MONICA NICKELSBURG** on January 7, 2020 at 9:51 am

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Cybersecurity Landscape – Smart Devices
 - Tips to Keep your Organization Safe – Smart Devices
 - Secure Wi-Fi networks
 - Work phones v. personal phones
 - Does it really need to be “smart?” – do not let convenience make you forget security
 - Don’t ignore updates
 - Use multiple authentication layers
 - Do research – buy smartly

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Cybersecurity Landscape – “Agree to Terms and Conditions”
 - It would take an average person 76 work days (8 hours a day) to read all the Terms and Conditions they agree to in a year

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Cybersecurity Landscape – Biometric Data
 - Data Breaches
 - State Biometric Laws
 - Illinois Biometric Information Privacy Act (2008): no private entity can gather and keep an individual's biometric information without prior notification and written permission
 - Texas Statute on the Capture or Use of Biometric Identifier (2009) (Tex. Bus. & Com. Code Ann. §503.001)
 - Washington Statute on Biometric Identifiers (2017) (Rev. Code Wash. (ARCW) § 19.370.900)

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Landscape – Practical v. Legal Concerns
 - Do I need to contact an attorney?
 - Do I need to inform my employees/customers?
 - Are there legal consequences?
 - Confidentiality?
 - Privacy?
 - Are there business consequences?
 - Do I need to take steps to avoid this occurring in the future?

Attorneys on Speed Dial – 39 things that keep us up at night

- The Changing Landscape – Can the Law Keep up?
 - Data Breach Notification Laws
 - First state law → 2002
 - Last state law → 2018
 - Amend definition of “data breach?”
 - Biometric Data Breach Laws
 - First state law → 2008
 - Only handful of states have law today
 - Smart Device Laws? Artificial Intelligence Laws?
 - Uniform Standard?
 - State “Safe Harbors”
 - Ohio Data Protection Act

Attorneys on Speed Dial – 39 things that keep us up at night

- Ohio Data Protection Act - Statutory Defense/Safe Harbor:
 - Create, Maintain, and Comply with WRITTEN Cybersecurity Program
 - Cybersecurity Program Must Contain Administrative, Technical, and Physical Safeguards to Protect Personal Information
 - Cybersecurity Program Must Be Designed To:
 - Protect the security and confidentiality of personal information
 - Protect against anticipated threats or hazards to the security or integrity of personal information
 - Protect against unauthorized access to acquisitions of personal information
 - Cybersecurity Program Must "**Reasonably Conform**" to an Industry Recognized Cybersecurity Framework

Attorneys on Speed Dial – 39 things that keep us up at night

- Other States:
 - California Consumer Privacy Act of 2018
 - Cal. Civ. Code § 1798.198, et. seq.
 - Massachusetts Standards for the Protection of Personal Information of Residents of the Commonwealth
 - Mass. Ann. Laws ch. 93H, §§ 1-6; 201 CMR 17.00
 - New York Stop Hacks and Improve Electronics Data Security (“SHIELD”) Act
 - N.Y. Gen. Bus. Law § 899-aa
 - Oregon Consumer Indemnity Theft Protection Act
 - Or. Rev. Stat. Ann. § 646A.600, et seq.
 - Colorado Protections for Consumer Data Protection Act
 - Colo. Rev. Stat. § 6-1-713.5

Attorneys on Speed Dial – 39 things that keep us up at night

- FTC
- *In the Matter of Tapplock Inc.*, Dkt. No. 4718 (FTC) (May 20, 2020) (consent agreement over allegations that Tapplock’s “smart locks” were not secure).
- *In the Matter of NTT Global Data Centers Americas, Inc. (RagingWire Data Centers)*, Dkt. No. 9386 (FTC) (June 30, 2020) (consent agreement over allegations that RagingWire misled customers about its participation in the EU-US Privacy Shield framework and failed to adhere to the program’s requirements).

Attorneys on Speed Dial – 39 things that keep us up at night

- FTC
- *United States v. Kohl's Department Stores, Inc.*, Case No. 20-859 (E.D. Wis.) (stipulated order for permanent injunction and other relief to resolve allegations that Kohls violated FCRA by failing to provide complete information to customers whose PII was used by identity thieves).

Attorneys on Speed Dial – 39 things that keep us up at night

- SEC
- *Cybersecurity: Safeguarding Client Accounts against Credential Compromise, <https://www.sec.gov/ocie/announcement/risk-alert-credential-compromise> (September 18, 2020)*

“The Office of Compliance Inspections and Examinations (“OCIE”) has observed in recent examinations an increase in the number of cyber-attacks against SEC-registered investment advisers and brokers and dealers using credential stuffing, a method of cyber-attack to client accounts that uses compromised client login credentials, resulting in the possible loss of customer assets and unauthorized disclosure of sensitive personal information. The failure to proactively mitigate the risks of credential stuffing proactively significantly increases various risks for firms, including but not limited to financial, regulatory, legal, and reputational risks, as well as, importantly, risks to investors. OCIE encourages firms to review their customer account protection safeguards and identity theft prevention programs and consider whether updates to such programs or policies are warranted to address emergent risks.”

Attorneys on Speed Dial – 39 things that keep us up at night

- CCPA
- *In re: Zoom Video Communications, Inc. Privacy Litig.*, Case No. 20-02155-LHK (N.D. Cal.).
 - Question of adequacy of notice
 - Sharing of personal data and information
 - Roll out of new version around March 27, 2020

Attorneys on Speed Dial – 39 things that keep us up at night

- CCPA
- *In re: Hanna Andersson and Salesforce.com Data Breach Litig.*, Case No. 20-01572-EMC (N.D. Cal.).
 - Data breach; skimmers/scrapers stole customer's payment information
 - Concerns raised regarding the notice provided to customers

Attorneys on Speed Dial – 39 things that keep us up at night

- CCPA
- *Cercas v. Ambry Genetics Corp.*, Case No. 20-00791 (C.D. Cal.).
 - Data breach
 - Failure to report

Attorneys on Speed Dial – 39 things that keep us up at night

- CCPA
- *Sweeney v. Life on Air, Inc. & Epic Games, Inc.*, Case No. 20-00742 (S.D. Cal.).
 - Houseparty
 - Privacy policy

Attorneys on Speed Dial – 39 things that keep us up at night

- CCPA
- *Shay v. Apple*, Case No. 2020-00017475 (San Diego Superior Ct.).
 - Defective gift cards

Attorneys on Speed Dial – 39 things that keep us up at night

- The ICO (and GDPR)
- 2019 Annual Report
 - Fines across Europe totaled €56 million
 - 200,000 investigations
 - 64,000 enforcement actions
 - Planned fines for BA of €183 million (1.5% of global revenue)
 - Planned fines for Marriot Group of €99.2 million (2.5% of global revenue)

FTC GUIDANCE

- FTC authority under Section 5 of the FTC Act related to unfair practices affecting commerce (*FTC v. Wyndham*, 799 F.3d 236 (3d. Cir. 2015)).
- June 2015: Start with Security: A Guide for Business (<https://www.ftc.gov/tips-advice/business-center/guidance/start-security-guide-business>).
 - (1) Start with security
 - (2) Control access to data sensibly
 - (3) Require secure passwords and authentication
 - (4) Store sensitive personal information securely and protect it during transmission
 - (5) Segment your network and monitor who's trying to get in and out
 - (6) Secure remote access to your network
 - (7) Apply sound security practices when developing new products
 - (8) Make sure your service providers implement reasonable security measures
 - (9) Put procedures in place to keep your security current and address vulnerabilities that may arise
 - (10) Secure paper, physical media, and devices.

FTC GUIDANCE

- Protecting Small Businesses (<https://www.ftc.gov/tips-advice/business-center/small-businesses>).
- Dec. 11-12, 2018: Hearings on Competition and Consumer Protection in the 21st Century (<https://www.ftc.gov/policy/hearings-competition-consumer-protection>).
- July 22, 2019: \$575 million Equifax settlement illustrates security basics for your business (<https://www.ftc.gov/news-events/blogs/business-blog/2019/07/575-million-equifax-settlement-illustrates-security-basics>).

SEC GUIDANCE

- SEC's Division of Enforcement's Cyber Unit was established in September of 2017.
- SEC Commission Statement and Guidance on Public Company Cybersecurity Disclosures, 83 Fed. Reg. 8,166 (Feb. 26, 2018).
- Dec. 6, 2018: SEC Chairman's comments:

"From a market oversight perspective, we continue to prioritize cybersecurity in our examinations of market participants, including broker-dealers, investment advisers and critical market infrastructure utilities. In assessing how firms prepare for a cybersecurity threat, safeguard customer information, and detect red flags for potential identity theft, for example, we have focused on areas including risk governance, access controls, data loss prevention, vendor management and training, among others. And given the interconnectedness of our markets, we will continue to work closely with our counterparts at other federal financial regulatory agencies and the international community."

SEC GUIDANCE

- 2019 Examination Priorities: Cybersecurity remains a top priority (<https://www.sec.gov/files/OCIE%202019%20Priorities.pdf>).
 - Configuration of network storage devices
 - Robust Information Security Governance
 - Policies and procedures (FINRA: investor advisors and investor data)
 - Managing internal systems and partners/affiliates (legacy systems)
- Sept. 9, 2019: SEC votes to propose amendments to the CAT NMS Plan [life cycle of orders through brokers/dealers] (<https://www.sec.gov/news/press-release/2019-173>).
 - File and publish a complete implementation plan for CAT and quarterly progress reports
 - Plan and report approved by OC and submitted to President/CEO
 - Fee reduction if milestones missed
- Oct. 2020: Spotlight on Cybersecurity, the SEC and You (<https://www.sec.gov/spotlight/cybersecurity>).

DHS GUIDANCE
